

KEY INVESTOR INFORMATION

ETHENEA

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Ethna-AKTIV - T

ISIN: LU0431139764

The Fund is managed by ETHENEA Independent Investors S.A..

Objectives and investment policy

The main objective of Ethna-AKTIV is to achieve a suitable increase in value (EUR) while taking into account value stability, capital security and the liquidity of fund assets. The Fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the Fund Manager in accordance with the criteria defined in the investment policy. The Fund is not managed using an index as a reference basis.

The Fund invests its assets in all kinds of securities, including shares, bonds, money market instruments, certificates and fixed-term deposits. The share in units, equity funds and share-type securities may not exceed 49% of the fund's net assets. The Fund may not invest more than 10% of its assets in other funds. The Fund mainly acquires assets of issuers whose registered offices are located in a Member State of the OECD. For hedging purposes or to increase its assets, the Fund may also use financial instruments whose value depends on the future prices of other assets ("derivatives").

Detailed information on the aforementioned (and/or further) investment opportunities of the Fund can be found in the current sales prospectus.

In principle, investors may redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may be suspended in extraordinary circumstances if this is deemed necessary in the interests of investors.

The Fund reinvests but does not pay rewards to investors.

Risk and reward profile

The historical data used for calculating the synthetic indicator are not a reliable indication of the future risk and reward profile of the share class. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.

This share class has been placed in the aforementioned risk class because its unit price is subject to medium fluctuation, therefore the profit potential and loss exposure may be moderate.

Because of the calculation model used, all risks may not be taken into consideration when placing the share class in a risk class. Detailed information can be found in the section entitled "Risks" of the prospectus. The following risks have no direct influence on this categorisation, but may be significant for the Fund:

Credit risks:

The Fund may invest part of its assets in bonds. The issuers of these bonds could become insolvent, causing the bonds to lose some or all of their value.

Liquidity risks:

The Fund may invest part of its assets in securities that are not traded on a stock exchange or similar market. It may be difficult to find a buyer for such securities in the short term. As a result, the risk that share redemptions will be suspended may increase.

Counterparty risks:

The Fund may enter into various transactions with counterparties. If a counterparty becomes insolvent, that party will not be able to meet some or all of its open obligations to the Fund.

Risks relating to the use of derivatives:

The Fund may enter into derivative transactions for the purposes listed above in the section "Investment policy". This means increased opportunities, but also increased risk of losses. The use of derivatives to hedge against losses may also reduce the profit opportunities of the Fund.

Operating risks and custodial risks:

The Fund may fall victim to fraud or other criminal activities. It may suffer losses through misunderstandings or errors on the part of employees of the investment company or third parties or be hurt by external events, such as natural disasters. There is a risk of loss associated with holding assets in custody, especially abroad. This risk may result from insolvency, negligence or misconduct on the part of the Custodian or a sub-custodian.

Charges

One-off charges taken before or after you invest

Entry charge	3,00%
Exit charge	0,00%

This is the maximum that might be taken out of your money before it is invested or before payment of the redemption price. Please consult your financial advisor for the actual amounts.

Charges taken from the Fund in the past financial year

Ongoing charges	1,87%
------------------------	--------------

This amount is based on the charges incurred by the share class in the past financial year, and may vary from year to year. The past financial year ended on 31.12.2019.

Charges taken from the Fund under certain specific conditions

Performance fees:

Up to 20% of the increase in Fund assets in excess of 5%, provided that previous decreases in value are offset. This is paid out annually.

In the past financial year, the performance fee amounted to 0,00%.

The charges borne by the investor are used for the operation of the Fund and for its management, marketing and distribution. The charges reduce the potential investment growth of the Fund.

Any eventual performance-related fee as well as any transaction costs incurred, with the exception of the transaction costs of the Custodian Bank, are not included in the 'ongoing charges' figure.

Past performance

The share class was established in 2009.

Performance was calculated in EUR and was not compared to an index.

Statements about past performance are not a guide to future performance.

All charges and fees, except for the entry charge, were deducted when calculating the performance.
